Thursday March 22nd - Left Lima
Was much relieved to find Mr. A.
Jackson at Puerto. Went on to La
Yeta.

Friday took train across
to Arequipa, where we reached at about

3 P.M. - Called on 1st Sec.

J. H. Reed, Commissioner
just in the absence of Capt. W.

Shelton, Commissioner.

He ordered up an Ambulance
+ 4 men with the horse and
driver, and we were off for

San Juan, where we arrived at 10 P.M.

After dinner the night was

spent in the city. The

night was very cold and a snow

storm was blowing from the

west. A light snow fell on

the city.

Saturday drove into Laredo
50 or 60 miles, arriving about
dark. Was greatly relieved
as we were three days behind
time. Found that Capt. Stearns'
company was still
waiting us. Mrs M. P. R.
Smith & Mrs M. E. Griffith had
come up with the 2nd Co. and
for a visit at Rev. Mr. Roberts,
after which they all went
at the mission.

Sabbath March 26th

Had a service in Spanish
at the mission room at 10 A.M.
and proceeded to a Sabbath
School - In the P.M.

a Spanish service conducted
by Rev. Mr. Roberts.

Proceeding the service he had
a Catechetical exercise, in which
the children repeated the Catechism

Laos we passed 3 or 400 Mexicans
& Indians playing Shisno.

The Rev. returned & preached to
an English congregation at
the Mission round. 20 present.
After receiving a Pueblo Indian
came with a letter for Mr. Thomas

came to Santa Cruz. There
was a mission on land.

terrible severe dust storm, in the
face of which it was almost im-

acquainted with the road,
he got wrong & traversed until

should have been at 10 A.M.
~~at~~ Pena Blanca
we had dinner in a room
taken off the Corral

The room was completely
empty. Bare walls, dirt floor,
dirt roof & fire place -

Having had nothing since
breakfast, Supper was in order.
To our consternation, in the hour
of our departure, we noticed
the putting up of our Commode.
So, since to a certain, we found
we had given coffee -

A Couple of Handfuls of Coffee
in the Skillet & it was soon
broiled or burned - The

Coffee was emptied on a

valley was a village occu-

Small herds of horses & cattle.
Large herds of sheep & goats.
From the Nutria, we
descended over into the valley
of the Pescado. At the
Pescado Springs, 3 miles
above where the main road
crosses the stream, are some
old ruins of Aztec. Further
below the Pescado River we
passed a country full of
ruins, where we saw
ruins reduced to mere
mounds of stone & brick.

Also passed some beautiful rock scenes along the edge of the woods - I saw the first for the first 14 or 15 miles passed through an extensive Indian rock region - ~~3 miles~~

It was a very fine forest - Pine, Spruce, Fir, etc. just as the sun came out the clouds were very low, and the sun was shining, which made the forest very beautiful. We were taking a walk in the forest, and found a place filled with stones. Some were smooth, and some were rough. A number of the stones were yellow, and some were red. After a while we found a place where the stones were very small, and some were very large.

Pueblo people were allowed
a large dinner table & what
was left - eating as we
had done, with plates & cups

we were shown a place
very fine where we could find
our blankets on the ground -
The Pueblo kept up their
talk around the place
until 1 or 2 o'clock, when
they went up with a few
of the people to the
Cathedral in Santa Fe.

... then - The village
is one of the largest in the
county. It is a large village
being too dirty to sleep in, and
consequently the school is on the
side of town. A great fire was
kindled & after dinner we
commenced held with 7 chiefs men
of the tribe. That had been called
for purpose. The school question
was discussed & they warmly
approved & established a new
mission school among them.
They voted to give 7000 lbs.
for the school & to see that
the children attend school.

The council lasted until near
midnight, when we spread
our blankets around the fire
& went to sleep.

Monday - Arose to find
about one inch of snow & the
clouds threatening more snow.
A portion of this party declined
going farther on account of the
weather among the Indians.
However the following party
was made up -

Miss Britton, Capt. Bennet
Landon Landerdale - Willie
Swaine. Capt. L. B. Blair -
Mr. H. Jackson & myself - I went
forward with Capt. Bennet &
Landon Landerdale in their
boat. A few miles out
from the Fort we found the
snow on the roads deep - and
that at night. It is frozen
just after sunrise - Before
sunrise before, however,
the snow is on the ground
I have greatly been
surprised, when they are
near by there is a very
large timber bridge - the
arch being 30 ft high.

Sabbath, April 15th

Spent in camp at the junction of Bat Canyon with Main Canyon. In the evening preached to the party seated around the camp fire. It was the first sermon that was ever preached in Canyon. Subject Christian usefulness largely dependant upon self denial & activity. Mind has been much exercised during the day, as during whole past week & as to how the Navajo people can be best reached with gospel or educational influences. Have had several conversations with Rev. B. Smith re subject. He is strongly moved to give himself to the work —
